

Speech from Leon Fischer – Vernissage Art Exhibition II – „Let’s Get in Touch“
30.08.2023

➔ **For me personally,**

- Art has the **energy to speak to us** like no human being can do
- Art can express **emotions** from the artist side and cause emotions on the observers side.
- Art can open new **perspectives** on our lives and our daily doings.
- Art let us **reflect** to different life designs and cultures. In our daily live doings, if we do the right things for yourself, and your fellow people.
>>>In my opinion, **the Reflection is the responsibility of each individual AND that is the link between art and sustainability**

➔ With this exhibition, we want to strengthen our **core values** and get our colleagues **connected in the house of collaboration (E.G. RIA)**

- **Collaboration**, our **growth mindset** (not only in business but also for the people to learn and develop) (Nina would say, the sky ist he limit), and **inclusion** of all cultures and life designs

➔ The art works **show the beauty and creativity of the artists and how they see the world.**

Each artwork is like a **window to new ideas that are meant to touch our hearts and minds.**

>> Thanks to **Nina and Sabrina** for believing in this project. Thanks to **Beatrice**, she put so much effort, time and passion into this project. Thanks to the guest artists **Noé Borst and Ira Brana** and the Ratepay internal artist **Khan, Andreas, Olachi, René, Philip and Nadja.**
